

Pilot Training

AVI50222 - Diploma of Aviation (Commercial Pilot Licence - Aeroplane)

AVI50519 - Diploma of Aviation (Instrument Rating)

Aviation Australia

Aviation Australia is a world class Registered Training Organisation (RTO), established by the Queensland State Government in 2001 to support the development and growth of aviation and aerospace industries in both the Australian and International markets.

All Aviation Australia programs are designed with a balanced focus between knowledge, skills, values and experience, ensuring that graduates enter employment with strong skills and a thorough understanding of aviation quality, safety and environmental standards. Aviation Australia are committed to delivering quality, flexible and cost-effective accredited training to individuals and companies.

Moorabbin Aviation Services (MAS)

Located at Moorabbin Airport—Melbourne's premier general aviation training hub—Moorabbin Aviation Services offers an exceptional environment for pilot training.

With five runways, an on-site control tower, and dynamic airspace, students gain hands-on experience in conditions that closely mirror commercial aviation. Since 1990, we have earned a trusted reputation for delivering high-quality flight training, preparing graduates for successful careers with domestic and international airlines, and supporting cadet programs for global aviation partners.

Launch your career as a Commercial Pilot today!

AVI50222 Diploma of Aviation (Commercial Pilot Licence - Aeroplane)

This course is designed to provide you with all the technical and non-technical skills you will need to achieve your Commercial Pilot Licence with the Civil Aviation Safety Authority (CASA).

The training focuses on theoretical components such as radio communications, risk management strategies and procedures, flight planning and aviation law. It also covers practical experience with briefing and flight training, which includes aeroplane take-off, landing, fuel management, situational awareness and abnormal flight situations.

This course can be paired with the Diploma of Aviation (Instrument Rating) and is delivered by MAS on behalf of Aviation Australia.
